### SUMMARY

---

Front-end developer based in the UK, building responsive web applications with HTML, CSS, JavaScript, React, Next.js and Tailwind CSS. I have hands-on experience building reusable React components, working with REST APIs and implementing common application features such as forms, filtering, sorting and CRUD functionality. My background in architecture and UI/UX design training helps me create clean, user-friendly interfaces.

### PROJECTS

---

- |                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| Oct 2023 – Jan 2024<br>Tehran, Iran | <b>UI/UX Workshop</b><br><i>Arjang Institute of Higher Education</i> <ul style="list-style-type: none"><li>- Designed responsive UI components in Figma using auto-layout and component libraries.</li><li>- Created user flows, personas, and early-stage UX ideation in FigJam.</li><li>- Completed a full UI/UX project for a sports-shoe e-commerce platform.</li></ul> |
|-------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

Jul 2023 – Sep 2023  
Tehran, Iran

**Advanced Web Design Workshop**

*Arjang Institute of Higher Education*

- Built responsive layouts using HTML, CSS, and Bootstrap.
- Practised semantic HTML and CSS architecture.
- Developed multiple front-end templates with reusable components.

Sep 2014 – Sep 2017  
Tehran, Iran

**Master of Architectural Engineering**

*Azad University, Central Tehran Branch*

Sep 2006 – Sep 2011  
Tehran, Iran

**Bachelor of Architectural Engineering**

*Azad University, Central Tehran Branch*

## SKILLS

---

**Front-End:** HTML, CSS, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, **Tools:** Git, GitHub, Vite, Vercel, Figma, **Other:** REST APIs, Responsive Design, UI/UX, **Learning:** TypeScript

## LANGUAGES

---

**English:** Professional, **German:** B2 (Certified), **Persian:** Native
