SUMMARY

Front-End Developer experienced in building responsive web applications with JavaScript, React, Next.js, Tailwind CSS, and REST APIs. Strong focus on UI/UX, accessibility, and intuitive user experiences, with hands-on experience integrating applications with Node.js, Express, and PostgreSQL. Comfortable taking projects from initial design through development, API integration, and deployment.

PROJECTS

Sep 2026 – Present	VoyaVista — UK Travel Application React, Tailwind CSS, Node.js, Express, PostgreSQL GitHub 🔗 - Building a UK travel application with a React frontend and a Node.js/Express backend. - Designed the application from the initial idea through UI/UX decisions and development. - Built travel-exploration features using data from the application API. - Built a REST API with Express and PostgreSQL to retrieve and display experience data in the React frontend.
Dec 2025 – Apr 2026	SetCoffee — E-commerce Website Next.js, React, Tailwind CSS, Framer Motion Live Demo 🔗 GitHub 🔗 - Built and deployed a responsive e-commerce application with reusable React components. - Implemented product filtering, sorting and catalogue functionality to help users find products efficiently. - Preserved the user's browsing position when navigating between the product catalogue and product details. - Implemented form validation, focus management, click-outside behaviour and out-of-stock alerts.
Oct 2025 – Present	Dela Codes — Developer Portfolio Next.js, Tailwind CSS, Framer Motion Live Demo 🔗 GitHub 🔗 - Built a responsive portfolio website using Next.js and Tailwind CSS with reusable components. - Added animations and interactive UI elements using Framer Motion and tsParticles. - Designed the website's logo, visual identity and responsive interface.
Dec 2025	Weather App — Weather Application React, Vite, Tailwind CSS, REST API Live Demo 🔗 GitHub 🔗 - Built a weather application in vanilla JavaScript, then rebuilt it in React using reusable components. - Integrated an external REST API to retrieve real-time weather data including temperature, humidity, wind speed and pressure. - Implemented city search and responsive styling using Tailwind CSS.
Nov 2025	Task Manager — Task Management Application React, Vite, JavaScript, Tailwind CSS Live Demo 🔗 GitHub 🔗 - Built a responsive React task management application with CRUD functionality. - Implemented adding, editing, completing, deleting and marking tasks as important. - Added task sorting, dark/light mode and persistent data using localStorage.

EDUCATION

Oct 2023 – Jan 2024 Tehran, Iran	UI/UX Workshop <i>Arjang Institute of Higher Education</i> - Designed responsive UI components in Figma using auto-layout and component libraries. - Created user flows, personas, and early-stage UX ideation in FigJam. - Completed a full UI/UX project for a sports-shoe e-commerce platform.
Jul 2023 – Sep 2023 Tehran, Iran	Advanced Web Design Workshop <i>Arjang Institute of Higher Education</i> - Built responsive layouts using HTML, CSS, and Bootstrap. - Practised semantic HTML and CSS architecture. - Developed multiple front-end templates with reusable components.
Sep 2014 – Sep 2017 Tehran, Iran	Master of Architectural Engineering <i>Azad University, Central Tehran Branch</i>

SKILLS

Front-End: HTML, CSS, JavaScript (ES6+), React.js, Next.js, Tailwind CSS

Backend & Data: Node.js, Express.js, PostgreSQL, REST APIs

Tools: Git, GitHub, VS Code, Vite, Vercel, Neon, Figma

Product & UX: Responsive Design, UI/UX, Accessibility, Forms & Validation, Search/Filter/Sort

Currently Learning: TypeScript
