SUMMARY

Front-end developer skilled in **HTML, CSS, JavaScript, Tailwind CSS, React.js, and Next.js**, with a strong focus on building clean, user-centred interfaces. I've developed several projects including a **Next.js coffee e-commerce website**, a **personal portfolio**, and multiple React apps such as a **real-time weather app** and a **task manager**. With a background in **architecture** and **practical UI/UX workshop experience**, I bring a design-driven mindset and a strong understanding of usability. I'm seeking a **junior front-end role** where I can contribute to real projects, grow my React/Next.js expertise, and collaborate within a professional development team.

PROJECTS

Dec 2025 – Present

Built and deployed a responsive coffee e-commerce website using Next.js, React, and Tailwind CSS.

- **Next.js & Tailwind** — Built and deployed a fully responsive coffee e-commerce platform with clean UI and reusable components.
- **Dynamic catalog** — Implemented product filtering, sorting, and best-seller logic for a smooth browsing experience.
- **UX enhancements** — Added scroll-position saving, click-outside interactions, auto-focused inputs, and clean custom validation to reduce user friction.
- **Framer Motion** — Integrated subtle animations and transitions to create a polished, modern feel.
- **Out-of-stock flow** — Designed a user-friendly “notify me” experience to handle unavailable products.
- **Git & Vercel** — Version-controlled the project with Git and deployed via Vercel for fast, reliable performance.

Oct 2025 – Present

Built and deployed a personal portfolio showcasing projects and technical skills.

- **Next.js & Tailwind** — Built a clean, responsive portfolio interface with reusable components.
- **Framer Motion** — Added smooth animations and micro-interactions to enhance user experience.
- **tsParticles** — Implemented an interactive animated background for a modern visual feel.
- **Custom branding** — Designed the site's logo and visual identity to match the overall style.
- **Git & Vercel** — Version-controlled the project with Git and deployed it through Vercel for fast, reliable hosting.

Nov 2025

Created a task management application with CRUD functionality and responsive design.

- **React & Vite** — Created a responsive task management app with a clean, minimal UI.
- **CRUD features** — Implemented adding, editing, completing, deleting, and marking tasks as important.
- **Smart sorting** — Added simple sorting to keep important and active tasks easy to find.
- **Dark/light mode** — Built a polished theme toggle for better usability.
- **Local storage** — Saved all tasks locally for a smooth, persistent user experience.

Dec 2025

Migrated my self-built vanilla JavaScript weather app to React, enhancing UI responsiveness and improving how external API data is handled.

- **React & Vite** — Developed a simple, responsive weather application with a clean UI.

- **API integration** — Fetched real-time weather data (temperature, humidity, wind speed, pressure) from an external API.
- **City search** — Implemented a search feature allowing users to quickly look up any location.
- **Tailwind styling** — Styled the interface with Tailwind CSS for a lightweight, consistent layout.
- **Refactor from vanilla JS** — Originally built in vanilla JavaScript, then rebuilt in React for cleaner structure and better component reuse.

EDUCATION

Oct 2023 – Jan 2023
Tehran, Iran

UI/UX Workshop

Arjang Institute of Higher Education

- Designed responsive UI components in Figma using auto-layout and component libraries.
- Created user flows, personas, and early-stage UX ideation in FigJam.
- Completed a full UI/UX project for a sports-shoe e-commerce platform.

Jul 2023 – Sep 2023
Tehran, Iran

Advanced Web Design Workshop

Arjang Institute of Higher Education

- Built responsive layouts using HTML, CSS, and Bootstrap.
- Practised semantic HTML and CSS architecture.
- Developed multiple front-end templates with reusable components.

Sep 2014 – Sep 2017
Tehran, Iran

Master of Architectural Engineering

Azad University

Sep 2006 – Sep 2011
Tehran, Iran

Bachelor of Architectural Engineering

Azad University

SKILLS

HTML, CSS, JavaScript(ES6+), Tailwind CSS, React.js, Next.js, UI/UX, Git, Github, Vercel, Figma

LANGUAGES

English, German, Persian
